2020 SUMMER

PRESIDENT'S MESSAGE
SPUD PEUGH

President's Letter 5-25-20

There are plenty of topics to address for this edition of the newsletter. I'd like to thank Sarah Dieterichs for taking care of the newsletter for the last several years. Denzil Lee has agreed to start publishing the newsletter with this addition and I owe Denzil a tremendous Thank You! Publishing the newsletter, especially the printed copies are a big job that's hard to appreciate until you've done it. Sarah you'll be missed and Denzil welcome to a necessary, difficult, and time-consuming job.

We need to vote on adding a pied class to the standard. The following change was submitted by district 5 and I edited the wording to fit into the standard. We will be voting to add the following language to Section 11. COLOR/ MARKING in the standard. Should the vote pass it will come after Section 11. Subsection B)

C) RANDOMLY PIED COLOR CLASS
Birds in this class should be first and foremost judged for overall balance, per our Standard. The feathering will be a mixture of random pure white (NOT GRIZZLED) and colored feathers, or a grouping or clustering of white and colored feathering throughout the entire body and ideally will include tail, muffs, and flights. The "ideal" pied effect will be a "gut-reaction" for all who see it, a striking mixture of pied white and color throughout the bird. It will not be recognizable to a specific marking nor seen as a pied black, blue, brown etcetera. The randomness and frequency of the white feathering will give the visual effect of a coarse Splash.

A pied bird with a solid colored tail and flights is most likely a Tiger Grizzle and should be entered in that class. Pied feathers are not grizzled they are pure white mixed in with pure alternating colored feathers. Grizzles are to be entered in their respective Grizzle classes.

1. Birds entered MUST BE randomly pied, not recognizable as a mismarked Tailmark, Saddle, Bodymark, Monkmark, etc. Mismarked birds must be entered in their respective markings classes, per Section 11, Subsection B).

2. Nor should a bird be a solid self of any color with just a few random, off-color (usually white) feathers. Those birds must be submitted in their recognizable self-color class Section 11, Subsection A).

3. There will not be 5 Color points awarded a Pied Bird, as there will/should not be enough self-coloring to truly determine excellence of "color."
Note: A Randomly Pied bird is usually not controlled by the breeder. Many are "accidents" or "surprises". This Class is not to be awarded the extra points for breeding difficulty, as we have for Color, or Marking ... which are controlled by selective breeding and should be recognized for difficulty in achievement, and thusly rewarded per our Standard.

4. The Pied Class winner will be eligible to participate in Champion Row, for the Championship, and will have a 5 point deficit not receiving Color or Marking points.

Please send your vote to Chris Goedeke
16861 Heritage Hills Lane
Henderson, MD
21640
voteifca@yahoo.com

□ **Yes. Please Change the standard to include Pied Birds at shows.**

□ **No. Do not allow a standard change to include Pied Birds.**

The next item of business is that we have received in writing two requests to formally change the band size to the 12 MM narrow band. We will mention this request in the next newsletter and will vote on the formal change in spring of 2021. The board agreed to make multiple band sizes available for 2021 in order to help us decide what to do. Kevin Severson will address what the band choices are in this or the next newsletter.

We will need to vote on the Board of Directors for 2021-2022 in the next newsletter. If you haven't, please submit your nominees to Chris G. as soon as possible. We will list the nominees in the fall 2020 newsletter and call for the vote at that time.

CHRIS GOEDEKE
VICE PRESIDENT'S REPORT

Happy Summer to all,

I hope this newsletter finds everyone healthy. My breeding is in full swing now and I am getting some good young as I hope everyone else is to. Not much for me to go over other than the results for NYBS and Nationals. I received a total of **ONLY 8 VOTES** with Dan Skiles Judging the NYBS and Ted Golka judging the Nationals. Congratulations to them and I am confident they will do a great job. I would remind everyone given the state of things to check with the show secretary before any plans are made to make sure the shows are still on. On a different note I found out recently that one of are master breeders Doc Larson is retiring. Since I started in this hobby, I have always looked up to him and based a lot of what I do with my birds around what he has taught me and showed me over the years. I would like to thank him for what he has done for are hobby and wish him the best.

I hope everyone has a great summer

Chris Goedeke

DISTRICT 1 DIRECTOR
DENNIS BRIGGS

Not much going on here except finally raising some young ones. Rick and Larry are having an exceptional year raising young birds. We have one show planned for September it will be in conjunction with the eastern Idaho state fair. And that's all for this time. Wishing all a great breeding season. Yours in the hobby DennisBriggs

DISTRICT 2 CO-DIRECTOR
HARVEY ADDENGAST

As the old saying goes, " What's old is new again". Mr. Grossman has asked to step down as District Two Director, believe me I understand more than he can know. Sometimes elections don't coincide with personal needs. As always, we as a district and club take the opportunity to thank Gary for doing the task for so many years and being active in the IFCA

I won't be doing the job alone, district two gets two old directors, one a bit older than the other. I think I was district director for at least 10 years back in the day, and I think Ted was director that long when he started. So you're getting two previous directors and two ex IFCA presidents now that I think about it, rather ironic.

What are Ted and I plans, about the same as what Gary's were. Hard to argue that the Des Moines show is the logical place for the 100 pt. show, they got a good thing going on in St. Louis, and Gary sure like to have that show up by him. No need to change what's working.

But for now Ted & I are looking forward to getting back to our roots of when we started the hobby, many, many years ago. If anyone in our district needs any assistance call Ted not me, that was the agreement, no just kidding everyone know I won't answer my phone any way

Harvey

DISTRICT 3 DIRECTOR
CHRIS RAINES

District Three.

Hello everyone, I hope everyone is healthy and well. It has been a very different breeding season ,We had a mild winter and easy early spring , but the last of April and first of May we have had some killer frost . A couple frozen babies and switching around young ones ,I got through it .Over all I had a good
season with a few good ones.

With time comes change .I want to thank Sarah for the excellent job she has done with the newsletter. We want to welcome Denzil. He will be taking over ,thanks for taking on this task . I am not sure about our upcoming show season. We have more questions than answers. There is an idea of a virtual show .You take several pictures of the bird from many angles, then a panel of master judges analyze the birds. This is an option to continue the shows under our circumstance

We have an election coming up . I would like to nominate Spud for president. The club is going strong and in a good direction. Please stay safe until next time.. Chris

DISTRICT 4 DIRECTOR
DAN SKILES

Hello from district 4!

Well, Spring is well underway and it's beginning to feel and look a little like some around here. My birds are doing as well as could be expected. There are always challenges in our breed. A wise man once told me,

"Raising Indian fantails is not for the faint of heart"! (We elected him IFCA president). So I hope that you are all having a good year!

I just got word that the lock down in Southern California on moving birds and having shows has been lifted.

No new outbreaks of Newcastle long enough to release the ban. So I'm assuming all shows are back on, assuming the Bat flu doesn't stop them.

I hope you are well, and enjoying your breeding season!

Dan Skiles

District 4 director

DISTRICT 5 DIRECTOR
PAUL TAPIA

District 5

Well summer is here and everyone should be in full force with their breeding, hope your all getting the results your hoping for. Hoping for the show season to happen this year, but everyone needs to stay safe, our district will have two shows this year, first our 100 point show will be in Louisiana and our 50 point in Kansas, any questions give me a call or email me.

Everyone stay safe

DISTRICT 6 DIRECTOR
SPUD PEUGH

District 6 News June 2020

Greetings from district 6. This spring has been a difficult time throughout the world, and it brought change to how I view the hobby as well. In April Bill Larson called me to let me know he had decided to retire from breeding and showing Indian Fantails. This was hard for me to hear and was an extremely difficult personal decision for the Indian Fantail Doctor to make. Doc has been breeding these birds since the early 70s and as of 2020 will hang up his competitive career with us for good.

I could write volumes about Doc's accomplishments with the birds from having last year's National Young Bird Champion to having bred the most winning bird of all time, however I want to focus on something infinitely more personal. The greatest gifts I've been given by the members of the IFCA have come in the form of mentorship. I know I don't have to tell anyone: Doc has carefully taught me the tricks, short cuts, and recipes for Indian Fantail success over the past 10 years. Doc Larson has been the most diligent of Mentors to me.

I spent time with Bill Larson on Father's Day 2010. He was having a pool day at his home in Lynchburg VA for his family and invited mine to join him. At the time I was working in the Poultry Industry and was afraid to ask to raise the birds because of industry rules against it. Doc started working on me that minute. He'd ask, "How silly is it that you work in an industry that prevents you from doing something you obviously enjoy?" One conversation after another and one visit after another Doc encouraged me find the strength to ask the company I worked for to start raising the birds again. When I did, it changed everything for me. Doc knew what that the birds were fundamental to my happiness and he helped me find the courage to get back into the hobby.

Doc (among others) helped me with some good quality breeding stock in early 2012 and spent the following 8 years showing me how to breed and show Indians. He provided a system for breeding and gave me all the equipment I needed to make it work. Doc used years of accumulated knowledge to carefully guide me into becoming a better breeder and asset to the club than I could have ever become alone. I've known and seen the power of strong mentorship demonstrated multiple times since I joined the club in the eighties. I now know the value first-hand. So, with a big tear rolling down my cheek I'll take one last opportunity to say thanks to Doc for helping me find the courage and spending the time to help me develop the skills to really enjoy this hobby on a vastly different level. Doc, you'll be missed by the club and missed on a much deeper level by me.

Two photos of Doc's trophy room. Note the Blue Bar Pageant Champion Hen and retired show coat.

DISTRICT 7 DIRECTOR
MIKE VITO

Hello to the membership,

In Canada right now there is lots of uncertainty in the hobby in general and shows in particular. I hear many people saying that they are going to purposely breed fewer birds this year as they are not sure how they will sell them in the fall and with potentially no shows they don't feel the urgency to have a show team together as much.

I am not sure where we will be with the hobby in 6 months when the show season is going but I know that at this point there is a mixed bag of reactions. Some of the show secretaries are assuming its business as usual, while others are making plans to cancel shows. There is also talk in Canada of holding virtual shows, similar to what the IFCA has been discussing. I assume that would be a last resort. With any luck this is simply a one year aberration. Time will tell.

We are in a down cycle in Canada as far as Indian Fantails go. Many of the mainstay breeders have let go of their birds, generally due to age. We don't have nearly enough young members to replace them, although there seems to be some interest growing in different areas. Floriano Lindo has been the glue holding much of the interest in the breed up here for a few years and deserves much thanks for his work along with his wife, Sue, and the boys. With any luck I will be able to get back involved to get some interest growing again as well.

On a different note, a friend that had assembled a beginning group of Mindians over the last few years has been diagnosed with PBLD and had to sell the birds off last year. I ended up with about 20 birds by default and not my real interest. But I have to say that they have really grown on me! I have a breeding program going forward and already around 20 young this year. There also seems to be some good interest in the breed in Canada so that's at least some positive news.

To all IFCA breeders, I hope you have a great breeding season and hopefully get to attend some shows this fall. Stay safe, Mike.

SECRETARY/TREASURER
KEVIN SEVERSON

Kevin Severson

As we send out this newsletter we all are hopping you are all healthy and well. There have been events around the world that affect us all in one way or another. This is another way that the Indian Fantail club joins us together as brother and sisters around the world. I am hoping and praying for our country to unite peacefully through these trying times. May God bless all of us!!

Now let's talk about pigeons and the club. We are completely out of Mindians bands however we still have Indian bands available for those who are running low and if you would like to make sure you get some bands before the bands run out please call and order some either on line through PayPal, print off an application and or mail it to me or just email me your request. (ifca.secretarytreasurer@gmail.com)

For your information this Bulletin only goes out to current paid membership in our club. For the district directors please communicate to your members and or remind all to get you membership caught up if they have not done so. In the next month I will be sending out to each director a list of all members in your district to see if you can reach out to all those breeders to get our membership list updated. If the member is no longer breeding Indians then we note it and we will remove them from our list. Thank you for this in advance!!
Bands for the 2021 season have been ordered below!!

Size 11 for Mindians	900 Total
Size 12 for Indians	3000 Total
Size 13 for Indians	1000 Total

We had a lot of discussion about band sizes that breeders would be happy with, and we have decided to purchase two different band sizes for Indians and one size for Mindians, this seemed to be the best solution for everyone. There were concerns about breeders that order very specific band number series for example 300 series that I have purchased in the past. With the two band series we purchased this would affect the least amount of breeders.

The new application will list all three band sizes for you to order. Please order early to get the bands in the sizes you desire.

We had a request for a detailed report of the IFCA account. That list is as follows!!

Starting Balance January		**$ 5162.86**
Administrative Costs		$ 1474.11
	Website	($ 1166.26)
	Bulletin	($ 230.66)
	Bank Fees	($ 69.27)
	Supplies	($ 7.92)

Refund	($ 29.00)
NPA Bands	($ 1122.50)
Shipping Bands	($ 176.52)
PayPal Fees	($ 8.17)
Membership Dues	$ 1175.00
NPA National Rebate	$ 131.00
Bands/Shipping/Patches	$ 1038.38

The Club Current Balance as of May 31, 2020 is $ 4696.94

I wish you all well as you continue through you breeding season preparing for the upcoming show season.

I will see any of you who come and show at the Salt Lake Premier November 6-7, 2020.

Kevin Severson

Ifca.secretarytreasurer@gmail.com

NEWSLETTER EDITOR
DENZIL LEE

First and foremost I want to thank Sarah for her dedication and hard work over the past 13+ years of getting this IFCA bulletin together and making sure that it's disseminated to our members. Sarah your hard work over the years is extremely appreciated. Kudos! Second it is my pleasure to serve in the capacity of Newsletter Editor and I hope to continue to provide the same excellence that Sarah embodied.

Nominations – There is a scheduled proposal to elect Harvey Addengast and Ted Golka for District 2 Co-Directors. Harvey and Ted have been long standing members of the club who have served in multiple capacities over the years and have contributed greatly to the success of the IFCA. This is being scheduled for a future vote which should be sent to the elections officer (Chris Goedeke) via Email **cmgoedeke@hotmail.com or phone number 443-790-7630.**

Have a wonderful summer all, stay safe be happy and breed excellent Indians!

WEBSITE COORDINATOR
FROM THE DESK OF JR THOMPSON

It's summer time and unfortunately the covid19 is still upon us please stay safe.

For most breeding season is a challenge with infertility issues but hang in there hopefully it'll get better, it's been a struggle for me this year but I'm hoping for a big turnaround.

Hopefully this disaster Will be over with and we may be able to do a show or two but if not take this time to concentrate on breeding goals and all

TED GOLKA
AWARDS COMMITTEE UPDATE/POINTS

Awards Committee Report

It’s May and along with May flowers comes the annual announcement of the award recipients for the 2019 show season.

Hall of Fame Bird

And the drought has been broken, after five consecutive years with no Hall of Fame birds, we finally have one, and guess what, it’s the same guy who had the last Hall of Fame bird five years ago, with another grizzle hen……Bill (Doc) Larson.

The grizzle hen, 3210, started last show season by winning the grizzle class at the National Young Bird Show, then she won the Virginia Pigeon and Dove Show, and the Lancaster, PA show. Then she finished her show season by being the 1st Reserve at the Grand National show in Myrtle Beach. In 2019, she won the Richman, VA show and the grizzle class at the Lancaster show.

Congratulations Doc on another well-bred bird!!!

Breeder of the Year

When you have a Hall of Fame bird, there is a pretty good chance you will be the Breeder of the Year in one of the two years your bird was shown. In Doc’s case, he made Breeder of the Year in both years his bird was shown. For the second year in a row, this year’s Breeder of the Year is Bill (Doc) Larson. Even though Bill attended fewer shows this year, he still earned 332 pts for the year.

This is the third time Doc has been Breeder of the Year. The first time was in 2012.

Sincerest Congratulations, Doc.

Jr. Breeder of the Year

Our Junior Breeder of the Year is Delanie Long. Delanie had Jr. Champion at both the Salt Lake Show and the Grand National with both of these shows being 100 point shows earning her 24 point for the year.

Congratulations Delanie on a job well done!

Mindian Hall of Fame Bird

The Mindians have their first Hall of Fame Bird and it should be no surprise to anyone who has been paying attention to the Mindians that it's James Horton's Black hen 1547.

In 2018, this bird won the first ever 100 point Mindian show at the NYBS, from there she was 1st Reserve at both the Lancaster and Richmond, VA shows. She finishes off her show season by winning the National at Myrtle Beach.

In 2019, this hen won the 50 point show in Richmond, VA to make her two year point total 170.

Congratulations James for having raised a very competitive bird and having the Mindian's first Hall of Fame Bird.

Mindian Breeder of the Year

Mindian Breeder of the Year this year is Paul Tapia. Paul had 1st Reserve at the National Young Bird Show. He won the Great Western which was a 50 point show as well as the Grand National where he also had 1st Reserve. This was also a 50 point show making Paul's point total for the year 142 pts.

Congratulations Paul.

Outstanding Service Award

There were no nominees for the Service Award this year.

Ted Golka

Awards Committee Chair
